ALLEGROPIANTA® | FX LUMINAIRE®

WHAT'S OLD, IS NEW!

AllegroPianta® is the new sister fixture to our SaguaroPetite® and our pathlite family.

We have extended our pathlite family with the new AllegroPianta® (AP). It is the newest addition to the petite family. Similar to the SP in size and shape, the AP has a smooth, all copper top, finish, while the SP has a sharp and stylish brass top.

This patent pending luminaire, milled from extra-heavy gauge copper and solid brass, is designed for today's crowded planters. When incorporated with plant material, the AP simply disappears into the garden.

The copper will patina naturally over time and can be accelerated with solution spray – for patina formula visit our website at: www.FXL.com/learning/patina.htm

CONCEALED ILLUMINATION

This sleek and sophisticated micro luminaire will lead an enchanting path to your suburban home. The small scale of the copper AP can camouflage well into any garden landscape.

And since the AP is precisely machined from solid copper, it will last for decades even at the ocean's edge.

PERIMETER LIGHTING
