

The FX Luminaire AL is a perfect blend of elegant form and clean geometric lines designed to blend in effortlessly with both classic and modern architecture. The AL produces a large elliptical light pattern and its deep cowling prevents glare even on most uphill applications.

AL: Path Light

The Lighting Chameleon

The AL can be used for traditional path lighting, or as an alternative to step-mounted or wall-mounted lights on challenging sites. Its unique shape allows the AL to shine over short garden walls to illuminate steps and paths.
