NOTES

The Low-Voltage Dimmer provides in-line dimming control for any low-voltage fixture. It's the ideal accessory for all landscape lighting systems that require dimming capabilities. The product is designed for installation in standard junction boxes, as well as in the field, for maximum flexibility.

Quick Facts

- Handles up to 120 W load for full-system dimming control
- Easy-to-read LCD clearly displays current fixture intensity
- Dimming capabilities from 0% to 100% allow precise lighting control
- Fully potted design enables easy installation in standard junction boxes or in the field — no electrician required
- Four backlit buttons enable easy intensity adjustments
- Modern design blends into landscapes for a pleasing aesthetic
