The Prestigious Golf Community of Geneva National chooses FX.

Geneva National is one of the premier golf clubs in the Lake Geneva area. The clubhouse was built 20 years ago and they have somehow managed without any landscape lighting until 2012. With an established building and landscape in place designer Todd Ingersoll designed the lighting to be both functional and decorative.

The benefits of this installation include an enhanced outdoor patio and kitchen for evening use, accented stairs and walkways for safety, the accenting of trees helping to highlight architectural features and overall property enhancement.
