

What's New 2023

FXLuminaire®

New Products to Help Solve Your Biggest Challenges

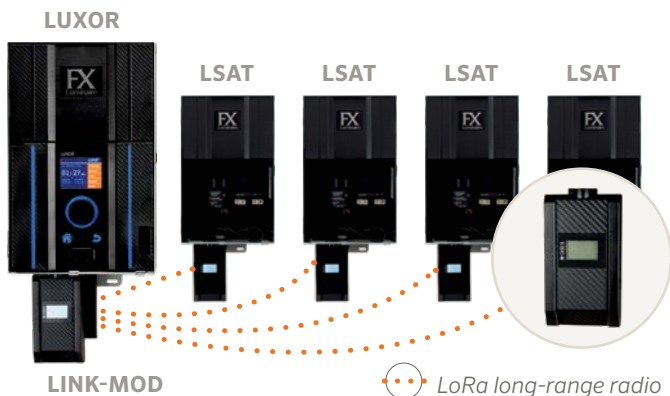

We're proud to set the industry standard for innovation and performance with every product and service we offer. And this year is no exception. Check out some recent additions to our FX Luminaire lineup designed to help you succeed.

2ND GENERATION POWERBOARD® TECHNOLOGY

This new LED technology offers enhanced benefits to bring nighttime living spaces to life with the power of light.

- Improved LED specifications for unmatched performance:
 - 40-65% higher output for greater efficacy, meaning customers get more lumens per watt
 - An Extended Minimum Rated Life of 72,000 hours for an additional 17,000 hours of functionality
- 10°, 35°, and 60° beam angle options included with most fixtures to create the perfect look

WIRELESS LUXOR® LINKING MODULE

Connect Luxor and Luxor Satellite Controllers faster to save time, labor, and money —without trenching or running wire.

- Uses LoRa® radio for secure and reliable long distance connections
- Quick Start Mode gets controllers up and running within minutes
- Advanced Mode lets you configure the wireless modules to specific Luxor or Luxor Satellite Controllers using unique identifiers; this enables powerful diagnostics, such as signal strength and transformer load percentage

The LoRa® Mark is a trademark of Semtech Corporation or its subsidiaries.

SRP RGBW STRIP LIGHT

The vibrant and versatile SRP RGBW Strip Light makes it easier than ever to illuminate stair ledges, outdoor patios, hardscape elements, and more.

- Compatible with the Luxor Controller or any traditional low-voltage transformer for unmatched color-changing effects when installed with the **SRP-CC Strip Light Color Controller**
- All necessary components come standard for seamless installation

Introducing My Design with Night Mode

The transformative Night Mode feature lets you design professional after-dark renderings with seamless control of fixture direction, light intensity, beam angle, and more. Use My Design to simplify the design process, increase sales, and grow your business.

With My Design, you can light up the night like never before.

To get started, simply snap a picture of any landscape, then turn on Night Mode to reveal the stunning effects of landscape lighting in your design. It's easy to create a professional proposal in just a few clicks using these robust tools:

- **Add Light:** Select one or more fixtures to easily add or remove lighting effects
- **Beam Adjustment:** Rotate and adjust a single beam
- **Beam Spread:** Select multiple fixtures and assign a custom beam spread
- **Beam Brightness:** Set the intensity of the light
- **Icon Size:** Choose the ideal fixture icon size with options of small, medium, large, and extra-large
- **Zoom:** Get a closer look at a particular area of the lighting design with detailed landscape images
- **Navigate:** While zoomed in, use the convenient preview window to quickly pan across the screen
- **Darkness:** Increase or decrease the ambient light

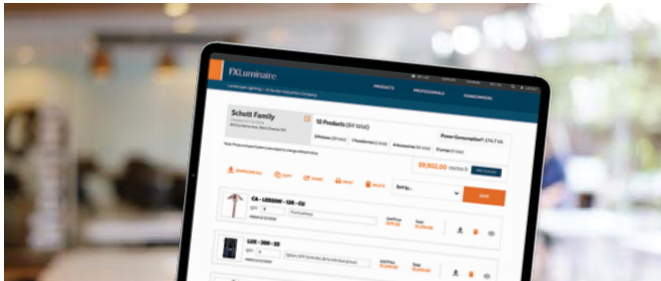

Use My Design to create elegant design proposals and unforgettable experiences that convert prospects into happy customers — all while streamlining the product ordering process and storing your data securely in the cloud for instant access whenever you need it.

Since My Design requires no technical expertise, it's simple enough for beginners yet powerful enough for experts. Try it for yourself and close sales faster! My Design with Night Mode is available now. **Scan to learn more!**

Powerful Tools to Grow Your Business

We offer a full range of online resources to help you work smarter, support your customers, and boost your product knowledge — for free!

MY LIST

Build customized product lists for every lighting project. Email your lists to distributors for faster ordering and add cut sheets, list pricing, and notes to each project.
