

LINE-VOLTAGE SERIES

Modern engineering and high lumen outputs
for easy installation and top performance

FXLuminaire®

A New Line of *Illumination*

The FX Luminaire Line-Voltage Series expands lighting design beyond the scope of traditional low-voltage lighting. With total flexibility in color temperatures, beam angles, and outputs up to 2,500 lumens, the Line-Voltage Series provides an ideal solution for lighting projects that require higher outputs and electrical capacities.

The Line-Voltage Series combines world-class engineering with a signature contemporary design aesthetic to create sleek, high-performance solutions for every project. With a range of options available, Line-Voltage Series fixtures offer removeable cartridges for easy servicing, highly resilient mounting accessories for streamlined installation, and tamper-resistant elements for ultimate security in public spaces.

LIGHT YOUR WAY WITH ELEGANCE

Robust and stylish A-NK4 and A-NK6 recessed wall lights complement traditional, modern, and classical architecture and bring elegance to walkways and pedestrian zones. The A-BR10 bollard is engineered with sharp lines and rounded curves to blend seamlessly into pathways of all scopes.

A-NK4

A-NK6

Primary Features

- Die-cast aluminum
- Lumileds® Luxeon® Z ES LED Array, Xicato® LED module
- Minimal visible hardware
- Two-layer, marine-grade anodization and powder coat finish

A-BR10

From commercial complexes to pedestrian plazas, FX Luminaire Line-Voltage Series fixtures deliver light effectively with sophisticated style.

Line-Voltage Fixture Specifications

Key Benefits

- Ultimate flexibility and versatility for desired control, color temperature, and optics with outputs up to 2,500 lumens
- All fixtures can be wired directly into the main electrical system with no special transformer required
- World-class engineering, modern designs, and tamper-resistant features for total security
- Easy serviceability with removeable lighting cartridges and various locking mechanisms
- Available in nine attractive finish options to complement a range of settings
- High quality, performance, and reliability synonymous with the FX Luminaire name

BEAUTIFUL FORM, UNMATCHED FUNCTION

The curvilinear A-ST5 down light begins as a circle that gently transitions to an eased square. The versatile A-CT4 and A-CT5 up lights are perfect for highlighting facades, signage, and architectural features. The adjustable A-KN in-grade light is available in ring or cowl configurations for flexibility during installation.

A-ST5

Primary Features

- Die-cast aluminum
- Xicato® LED module
- Minimal visible hardware
- Two-layer, marine-grade anodization and powder coat finish
- ProAim® adjustability
- Tamper-resistant features
- Removable lighting cartridge
 - Easy servicing
 - Fail-proof installation

A-CT5

A-CT4

A-KN

Removeable cartridges simplify maintenance. Tamper-resistant features ensure maximum safety and security in busy public areas.

LOW PROFILE, HIGH IMPACT

The A-HS recessed wall light provides a soft, floor-grazing light output at low mounting heights. With a precisely targeted, outward light distribution, the fixture is ideal for illuminating stairs, walking paths, driveways, and patios..

Primary Features

- Die-cast aluminum
- Two-layer, marine-grade anodization and powder coat finish
- Maximum glare control
- Optics packages
- Tamper-resistant features

A-HS

Power and Control

LUXOR® AND LUXOR CUBE, ZONE AND DIM

With the innovative Luxor CUBE device, the best-in-class Luxor controller can zone and dim Line-Voltage Series fixtures from FX Luminaire and other brands. The CUBE can also control carriage lights, entry pillars, holiday lights, and bistro lights.

Type	Model Number	Max Load	Supports	Notes
Line-Voltage	LCM-HV	400W/3.3A	AC Lighting (Dimmable LED and Incandescent)	Alternate HV Power Source Required
