Intensity Adjustment

fxl.com/DIMLV

Compatible with all low-voltage transformers, the new dimmer offers these great benefits:

- 12 V in, 12 V out ensures safe operation and simple installation
- 120 W total system capacity enables dimming of multiple fixtures
- Four backlit buttons allow for easy intensity adjustments
- 0% to 100% dimming control for maximum design flexibility
- Custom intensity presets offer simple, one-touch operation
- Modern design blends into landscapes for a pleasing aesthetic
