

About FX Luminaire

FX Luminaire is an industry-leading manufacturer of high-quality, high-efficiency landscape and architectural lighting products with a focus on the advancement of LED technology and digital lighting control with zoning, dimming and color adjustment capabilities.

FX Luminaire is a division of Hunter Industries, one of the world's leading manufacturers of irrigation products. Being a part of the Hunter family of businesses gives us access to a deep corporate infrastructure with global reach, significant funding for research and development, and a world-renowned customer support system.

Leaders in Corporate Responsibility

FX Luminaire and Hunter Industries are committed to producing innovative solutions that save energy and water, and our efforts for conservation extend far beyond our product lines. The practice of minimizing resource use is alive in every aspect of our business, including our facilities and manufacturing processes.

Get Connected with a Professional

No matter where you live or what type of landscape you have, hiring a professional to design your outdoor lighting is the best way to maximize your property's potential.

Contact your local lighting contractor and ask about a consultation today.

& Enhance Your Home*

FXLuminaire®

Outdoor landscape lighting is an *affordable way to beautify your home*

Benefits of Installing a Low-Voltage Lighting System

Outdoor landscape lighting is an affordable way to beautify your home and create additional living space without costly renovations. By adding a low-voltage lighting system you can:

- Enhance outdoor gatherings by lighting eating and grilling areas, patios, pools, and spas.
- Make your home safer by illuminating walkways, steps, and entryways.
- Highlight landscaping, stonework, and architectural details.
- Create curb appeal with special lighting effects.

Hiring a Professional Is the Best Way to Ensure Quality

Be sure to hire a qualified lighting contractor to choose the best products, design a professional installation, and provide necessary maintenance.

- Local lighting contractors know the correct installation for a successful system.
- Contractors guarantee their work with services and warranties.
- Lighting professionals understand landscape lighting needs and follow local ordinances.
- They're experts in proper lighting design and electrical codes.
- The professional's skills will ensure years of trouble-free performance.

FX Luminaire Products Create a Variety of Effects

Up lights add a tremendous amount of texture, contrast, and interest by highlighting trees and landscaping.

Down lights mimic the effects of moonlight and are practical when hung or mounted above tables, barbecues, and seating areas.

Path lights provide safe illumination for walkways.

Wall lights increase safety, define edges, and enhance ambience.

Specialty lights such as well lights are used to illuminate driveways; underwater lights add drama to water features.

Controllers provide power to your lighting system with traditional, digital, or advanced zoning/dimming/color control with optional Wi-Fi capabilities from your smart device.
