

What's New 2022

FXLuminaire®

New Products, Training, and Tools to Grow Your Business

Check out the latest additions to our professional solutions lineup in 2021 and see what's coming down the pipeline in 2022.

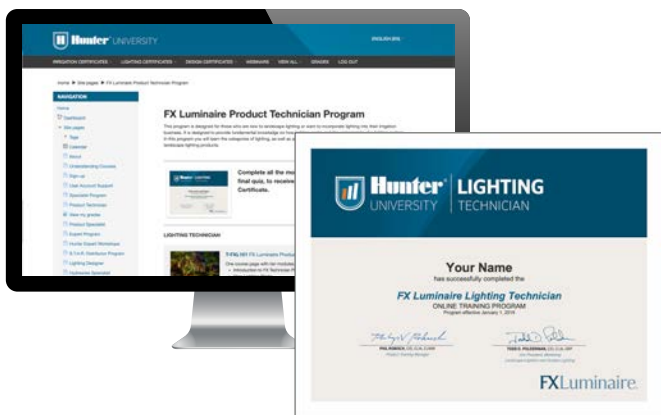

Work Smarter with My Design
All you need is a free account to get started!

MY DESIGN

Designers and contractors can leverage the new My Design tool to simplify the lighting design process, impress their customers, and close sales faster — no technical expertise required! Check out the time-saving benefits of My Design:

- Users snap pictures while walking the jobsite, then drag and drop desired products over the image
- Complete product lists can be shared with a local distributor via email from within the tool
- Printable PDF sell sheet can be emailed to customers

LIGHTING TECHNICIAN PROGRAM

This self-paced online training program from Hunter University provides the foundational knowledge you need to succeed in landscape lighting. The 10-course certificate program covers:

- The premium features offered by FX Luminaire lighting fixtures, controllers, and accessories
- The basic components of a lighting system and how they bring outdoor living spaces to life
- Installation methods, design strategies, and tips for growing your business with FX Luminaire

BUILDING YOUR LIGHTING BUSINESS

We developed this comprehensive, free training manual to help contractors feel confident about adding landscape lighting solutions from FX Luminaire to their offerings. The guide presents:

- Essential lighting concepts, design techniques, and customer engagement strategies
- The history, science, art, and business of successful lighting design
- The key benefits of FX Luminaire fixtures and lighting control solutions

SRP STRIP LIGHT

The SRP Strip Light comes with all components needed for installation — with no adhesive or heat shrink required! The SRP ensures a seamless, long-lasting installation with:

- An extruded silicone body that reduces hot spots
- Zoning and dimming capabilities with the Luxor® Low-Voltage CUBE
- 10' (3.1 m) or 40' (12.2 m) lengths with 2" (51 mm) cutmarks for precision customization
- An optional aluminum channel mount for easier installation in hardscape settings

SL RECESSED WALL LIGHT

The SL Recessed Wall Light is now available in a larger configuration that provides a wide beam spread up to 14' (4 m). The new, easy-to-install SL-5 option offers:

- Retrofit capability using standard junction boxes for North America (1-G and 4")
- Die-cast aluminum construction for a strong, lightweight fixture
- Marine-grade anodization for corrosion protection
- Compatibility with Luxor Technology for zoning, dimming, and color-changing control

VO IN-GRADE/WALL LIGHT

The popular VO In-Grade/Wall Light is now available with a Round (RD) faceplate that prevents unwanted glare. The fixture also offers:

- A premium stainless steel body that is durable, rust-proof, and easy to clean
- The flexibility to function as a watertight in-grade or a wall light for lighting pathways
- An integrated ZD 1 LED board for zoning and dimming capabilities
- A dedicated concrete mount to simplify installation (optional)

LP UNDERWATER LIGHT

The versatile LP Underwater Light is available with a new vertical (VR) lead wire configuration in addition to its original horizontal (HZ) orientation. The vertical option makes it easier to place the fixture:

- Directly into a wall
- At the bottom of a golf cup
- In a 2.5" (64 mm) PVC schedule 40 conduit
- In ponds, fountains, and other water features

PAR-36 Eco

MR-11 Eco

NEW LAMPS

We recently added economy PAR-36 Eco and MR-11 Eco LED Lamps to our offering to provide more options for contractors. These join our full line of MR-16 LED and G4 LED Lamps. All FX Luminaire lamps:

- Produce accurate beam angles with long-lasting LEDs
- Protect LEDs from water intrusion
- Maximize energy savings by allowing more lamps per transformer
- Offer a wide range of output, beam angle, and color temperature options

LIGHTINGSHRINK® WIRE CONNECTORS

FX Luminaire now offers an industry-leading solution to ensure a perfect connection every time! These unique connectors provide three essential elements that provide a secure wire connection:

- Ratcheting Crimper Tool guarantees solid metal-to-metal contact for a strong electrical connection
- Installation provides strain relief to minimize cord stress and connection breaks
- Adhesive-lined heat shrink tube creates a waterproof seal to prevent electrical shorts

THE VAULT

Unlock The Vault beginning in January 2022 to learn about FX Luminaire products, engage in challenges, answer weekly trivia questions, and earn coins to win prizes. Inside The Vault, you can:

- Take advantage of exclusive opportunities to increase your skills and test your knowledge
- Earn bonus coins by participating in select training events, organizing demos, and offering special product promotions
- Access valuable resources to help grow your business
